It does not include attorneys fees, environmental clean up costs, brokerage fees paid by the buyer, real estate transfer taxes, or any other cost not identified in this subsection.

(8) "Nonprofit conservation organization" has the meaning in s. 23.0955 (1), Stats., and whose bylaws, charter or incorporation papers reflect as a purpose of the organization the acquisition of property for conservation purposes.

NR 51.003 Variances. The department may approve in writing a variance from a requirement of this chapter if the department determines that a variance is essential to effect necessary grant actions or program objectives and where special circumstances make a variance in the best interest of the program. Before approving a variance, the department shall take into account factors such as good cause, circumstances beyond the control of the sponsor, financial hardship and landowner

demands. The department shall seek the advice of the stewardship advisory council before issuing variances to s. NR 51.03 (1). The department may not grant variances from statutory requirements.

History: Cr. Register, October, 1990, No. 418, eff. 11-1-90; r. and recr. Register, February, 1996, No. 482, eff. 3-1-96.

Subchapter I — Nonprofit Conservation Organizations

NR 51.01 Purpose. The purpose of this subchapter is to establish procedures and standards for the administration of grants to nonprofit conservation organizations for conservation purposes as set forth in s. 23.096, Stats.

History: Cr. Register, October, 1990, No. 418, eff. 11-1-90; r. and recr. Register, February, 1996, No. 482, eff. 3-1-96.

NR 51.02 Applicability. This subchapter is applicable to nonprofit conservation organizations that wish to apply for grants as specified in s. 23.096, Stats., for any one of the following stewardship grant programs: s. 23.092, Stats., habitat areas; s. 23.094, Stats., stream bank protection; s. 23.17, Stats., ice age trail; s. 23.175, Stats., state trails; s. 23.27, Stats., natural areas; s. 23.29, Stats., natural area heritage program; s. 23.293, Stats., ice age trail dedications; s. 23.09 (19), Stats., urban green space; s. 23.09 (20) (d), Stats., aids for the acquisition and development of local parks; and s. 30.277, Stats., urban rivers.

History: Cr. Register, October, 1990, No. 418, eff. 11-1-90; am. Register, June, 1994, No. 462, eff. 7-1-94; r. and recr. Register, February, 1996, No. 482, eff. 3-1-96.

NR 51.03 General provisions. (1) Grants shall be issued for 50% of the acquisition cost of the property. The remainder of the acquisition cost shall come from sponsor match with the following limitations:

(a) Up to 50% of the fair market value of a contribution of property may be used as sponsor match with the approval of the department, but only to the extent that stewardship grant assistance is needed to acquire the subject parcel. The amount of the property donation that can be used for the match equals the value of the donation or the amount of cash needed by the sponsor for the purchase, whichever is less, so there will be no cash back in excess of the monies actually needed for the purchase.

(b) If approved by the department, any residual value of a property donation which is not utilized as sponsor match in an application may be used for sponsor match in subsequent applications, but only in the fiscal year in which the first application is submitted and the following fiscal year.

Note: For example, land valued at \$20,000 is donated to the project sponsor who then purchases another property within the project boundaries for \$8,000. The appraised value of the purchased property is \$12,000. The total project value is \$32,000 and the matching share would normally be \$16,000. But because only \$8,000 was actually spent to purchase the land, and since a grant in excess of that would constitute a profit to the sponsor, the state share is reduced to \$8,000. The remaining \$8,000 in donor value may be used by the sponsor in subsequent applications in that fiscal year and the following fiscal year.

(c) Contributions of property are eligible as sponsor match only if the donated property lies within the boundaries of a project which has been approved under the same component of the stewardship program as the property being acquired.

(d) The fair market value of property used as sponsor match shall be determined by department valuation guidelines.

(e) All sources of sponsor match shall be included in the application for a stewardship grant.

(2) One half of all receipts from the sale of any structures, improvements or personal property that were included in the appraisal and subsequent acquisition cost shall be reimbursed to the department.

(3) Income accruing to property receiving a stewardship grant shall be used to further the objectives of the project as stated in the grant contract.

(4) Reasonable entrance, service or user's fees may be charged to defray operation and maintenance costs subject to department review and approval.

(5) Sponsors shall agree to abide by all applicable state, local and federal statutes and regulations including but not limited to general and special zoning, land use permit requirements, disabled access, environmental quality and historical and archaeological preservation.

(6) Property transactions shall be subject to ss. 32.19 to 32.27, Stats., and relocation assistance shall be subject to ch. Comm 202.

Note: The following information is from ch. Comm 202.

Under s. Comm 202.01 (14), "an owner occupant who voluntarily sells a property to a displacing agency not vested with eminent domain power" is not a displaced person and is not entitled to relocation assistance. Tenants who occupy a property are entitled to relocation assistance even if the owner is voluntarily selling the property.

Under s. Comm 202.01 (14) (b) 4., a "tenant-occupant of a dwelling who has been promptly notified that he or she will not be displaced by the project" but who can remain permanently on the property subject to normal rental conditions and provisions may not be a displaced person who qualifies for relocation assistance so long as they are not required by the sponsor to move.

Under s. Comm 202.01 (33), relocation assistance shall apply to all stewardship grants where the total of stewardship grants and all other public financial assistance or direct government acquisition costs in a project are at least \$5,000 for a project with total costs of less than \$50,000; or at least 10% in a project having total costs of \$50,000 or more.

(7) Sponsors shall treat landowners fairly and negotiations between the sponsor and landowner shall be conducted on a willing seller – willing buyer basis. The sponsor shall inform the landowner in writing that it may apply for a stewardship grant and that if it receives a grant the amount of the grant shall be determined by department approved valuation guidelines.

(8) Sponsors may not discriminate against any person in the use and enjoyment of the property on the basis of age, race, creed, color, handicap, marital status, conviction record, arrest record, sex, national origin, ancestry, sexual orientation or membership in the national guard, state defense force, or any other reserve component of the military forces of the United States or this state.

(9) Sponsors shall acknowledge the state's assistance in acquiring fee title ownership of a property by placement of signs or in any other manner approved by the department.

(10) The department shall have access to land acquired with a stewardship grant in order to monitor compliance with the grant contract or carry out any management activity necessary to ensure the public's rights and safety.

(11) The department shall have access to property on which an easement is acquired with a stewardship grant, in a reasonable manner upon prior notice to the nonprofit conservation organization and the landowner, to monitor compliance with the conditions of the grant contract. The conditions of that access shall be contained in the easement agreed to by the landowner. The department may grant exceptions to this access requirement in extraordinary situations according to the procedure in s. NR 51.003.

(12) The sponsor may sell or transfer the property to a third party other than a creditor of the organization with the prior written approval of the department. All stewardship restrictions imposed by the grant contract and land management plan shall remain with the property and any subsequent owners shall execute a grant contract assignment which states that they have received and reviewed the grant contract and land management plan and shall abide by their provisions. Department approval of the transfer is not valid until the contract assignment is signed by and recorded in the appropriate register of deeds office.

(13) The sponsor shall notify the department of any change in the status or purpose of the nonprofit conservation organization as it relates to the acquisition and management of lands for conservation purposes.

(14) If the nonprofit conservation organization dissolves, all title, right and interest held by the sponsor in and to the property shall vest in the state, without the necessity of reentry, unless a transfer under sub. (12) is approved.

NR 51.04 Application procedures and eligibility for grant assistance. (1) APPLICATION PROCEDURES. (a) Applications for stewardship grant assistance shall be submitted to the appropriate district office on forms provided by the department. Applications may not be considered until information requested by the department has been received.

Note: Copies of application forms and instructions are available from the DNR, Bureau of Community Assistance, Box 7921, Madison, WI 53707.

(b) The department may approve applications as they come in, year-round to the extent that funds are available or the department may establish application deadlines for individual components of the stewardship programs in order to rate and rank competing applications.

(c) The department shall send written notification to sponsors of department decisions regarding their applications after all application materials have been received and acted upon by the department.

(2) ORGANIZATION ELIGIBILITY. (a) An organization shall be eligible for the stewardship program once it has provided evidence satisfactory to the department that it is a nonprofit conservation organization.

(b) The department may award a stewardship grant to a sponsor after the sponsor has provided evidence satisfactory to the department that it has the financial capacity and the ability to acquire property and provide for its long-term management and maintenance.

(3) PROPERTY ELIGIBILITY. (a) The department may award stewardship grants only for property or a portion of property that is consistent with the goals of the stewardship program.

(b) Property shall be evaluated and grants awarded according to the specific criteria for each component of the stewardship program. The evaluation shall be based on the information submitted in the application as well as site visits and technical review comments. In addition, eligible property shall meet applicable provisions of this subchapter.

(c) Additional factors which may be considered by the department when awarding grants include:

1. Projects which have regional or statewide significance may receive priority over projects which have only local significance.

2. A higher priority may be placed on existing projects or large projects, which may be pursued in collaboration with others, where the multiple acquisition of adjacent parcels will provide greater benefit for natural resource conservation than single parcel projects.

3. The degree to which the site is threatened by development or other conversion of land use.

(d) Any property that is subject to a reversionary right or has restrictions or covenants that limit the ability of the property to be managed for the conservation or public recreational purposes of the stewardship program is not eligible for a grant.

(e) Any property which was acquired more than one year before a grant application is submitted for that property is not eligible for a grant. Eligible parcels which are not awarded grants in the fiscal year they are submitted due to insufficient funds, shall also be considered for funding in the following fiscal year.

(f) Property is not eligible unless the sponsor has developed a sound land management plan for the property which ensures the long-term viability of the project.

(4) The department may make a conditional decision to approve a project or award a grant, but withhold a final decision or grant payment until identified contingencies are satisfied.

Register, February, 1996, No. 482, eff. 3-1-96.

NR 51.05 Grant contracts. (1) Stewardship grants shall be subject to the execution of a grant contract between the department and sponsor. The grant contract shall recognize the state's interest in the property acquired and ensure that sponsors shall provide adequate land management and maintenance, or in the case of easements shall monitor and enforce the conditions of the easement, in accordance with provisions contained in the grant contract and in a land management plan approved by the department. The grant contract shall be recorded in the office of the register of deeds in the appropriate county.

(2) All obligations, terms, conditions and restrictions imposed by the grant contract shall be deemed to be covenants and restrictions running with the property and shall be effective limitations on the use of the property from the date of recording of the grant contract and shall bind the sponsor and all successors and assigns in perpetuity.

(3) If the sponsor violates any condition of the grant contract identified as essential pursuant to s. 23.096 (5), Stats., and fails to correct it within 6 months after written notification from the department, it shall be a violation of the grant contract, and all title, right and interest held by the sponsor in and to the property shall vest in the state without the necessity of reentry. The following conditions of the grant contract are essential:

(a) Conversion of the property to any use other than that specified in the grant contract without the prior written approval of the department is prohibited.

(b) The sponsor may not convey any interest in the property to a third party nor allow any leases, permits or encumbrances without the prior written approval of the department. The department may take actions necessary to avoid the placement of liens, judgments or encumbrances against the property.

(c) Property tax payments shall be made on time and kept current unless property taxes are not required.

(d) The sponsor shall at all times maintain its tax exempt status as granted by the IRS. The sponsor shall keep the department informed of any changes in, or challenges to, its exempt status.

(e) Property acquired with a stewardship grant may not be closed to the public unless the department determines that it is necessary to protect species of plants, wild animals or other natural features or if the right of public access is not acquired as part of the rights purchased with an easement.

NR 51.06 Grant payments. The department may not approve grant payments until the following conditions have been satisfied:

(1) The sponsor has submitted a claim supported by appropriate evidence of cost. Financial records including documentation to support accounting records shall be available for review by state officials for a period of 3 years after final payment.

(2) The value of the property has been approved by the department according to department valuation guidelines.

Note: The department's valuation guidelines are available from the DNR, Bureau of Community Assistance, Box 7921, Madison, WI 53707.

(3) The sponsor has submitted an environmental inspection report showing the property contains no undesirable environmental conditions, potential liabilities or hazards that are unacceptable to the department. Inspection and audit reports are subject to department review and approval. If a report shows the property contains or may contain unacceptable environmental

conditions or liabilities, the department may reject the grant application or require an environmental audit to determine the full extent of the problem.

Note: The department's environmental inspection report form is available from the DNR, Bureau of Community Assistance, Box 7921, Madison, WI 53707.

(4) (a) Except as provided in par. (b), title insurance or other evidence of marketable title has been approved by the department and the interests of the state under the grant contract have been declared in a recorded instrument of conveyance.

(b) Upon the request of the sponsor, the department may elect to pay out up to 100% of the grant award to a non-interest bearing escrow account before conveyance of the property to the sponsor if the department has approved the title commitment or an attorney's opinion of title merchantability and if the escrow holder has agreed to release the funds only under the following conditions:

1. The escrow holder has all necessary additional funds for the purchase and sale of the subject property;

2. The escrow holder insures title to or receives title insurance for the property subject only to exceptions contained in the title commitment which has been approved by the department; or the escrow holder receives a department approved title opinion.

3. The escrow holder insures that a legal instrument is recorded which vests title or a property interest in the sponsor and references the interest of the state in the property under the terms of the grant contract.

4. Funds shall be returned to the department within 30 days of the closing date if the closing does not occur as scheduled unless the department approves an extension.

(5) All statutory requirements, requirements of this chapter and contingencies contained in the grant contract have been satisfied.
